## Daily Life

Ours is a community of like-minded individuals who have led interesting, full lives. We're here to make sure that whatever fulfills you is possible—regardless of age or physical limitations.

Every day, there are opportunities ranging from concerts, lectures, book discussions and gardening, to exercise, crafts, intergenerational events and more. In addition to in-community programs, private transportation is available for special trips to cultural attractions, recreation, worship, appointments, shopping and more.

Our active programming is focused on supporting the interests of each resident and our Engagement Director will spend time getting to know you, and assist you in finding programs that are suited to your interests and needs. We can even develop new programs with you. The choice is yours to stay as active and engaged as you desire!

## Senior Living *Your Way!*

Every independent and assisted living resident has a private apartment with kitchenette, full bath and a host of amenities. All residents enjoy a variety of beautiful common spaces that include a library, sitting areas, a private dining room for special occasions with family and friends, recreational spaces, hair and nail salon, and more.

**Independent Living** One of the most-popular aspects of our community is the Independent Living option. Residents enjoy gorgeous apartment living, with a variety of engaging programs and activities that allow you to pursue the things that make you happy. Enjoy the peace-of-mind of 24-hour staff and security, professionally-prepared meals and a range of support services that you can tap into should a temporary or longer-term health issue arise.

It's the best of all worlds: comfortable apartment living without the stresses of home ownership, help just steps away in case you need it and a location that is at the crossroads of culture, shopping and all the richness that the area has to offer.

**Assisted Living** For those desiring more help, the Assisted Living plan includes all of the above, plus assistance with the activities of daily living. Our goal is to help you remain as independent as possible, while assisting you with tasks like dressing, showering, managing medications or whatever your particular need might be.

Reflections  
Memory Care

## A Life of Dignity and Purpose

A mindful, non-pharmacological approach to promoting dignity and quality of life for those with memory challenges, through compassionate care and a focus on the person, not the disease.

Our Reflections Memory Care program is based on a philosophy of empathy, expression and mindfulness. Through varied and carefully planned programs, we support and enrich the experiences that our residents have every day. We encourage them to be active members of society, to be independent, to express themselves and to flourish. We create life experiences and events, not activities.

Reflections is distinguished by its five *Principles for Vitality*, which connect with the whole person through Continued Learning, Arts & Culture, Physical Fitness, Community Connections and Wellness & Self-Care. Through these five dimensions residents thrive in the moment as their best selves.

Influenced by an evidence-based wellness model, our memory care program is led by dementia professionals who are certified by the **National Institute for Dementia Education (NIDE)**.

## Expressive Arts

*...where words fail, expression remains*

Expressive art therapies stimulate parts of the brain that hold memories, skills, desires, and feelings like comfort and joy. Because art transcends speech, we can achieve profound connections.
