Sometimes just a little bit of help with daily activities is all it takes to turn back the clock. The Assisted Living plan includes individualized assistance with the activities of daily living. Our goal is to help you remain as independent as possible, while assisting you with tasks like dressing, showering, managing medications or whatever your need might be.

Assisted Living residents enjoy spacious apartment living, with a variety of engaging programs and activities that allow you to pursue the things that make you happy. Enjoy the peace-of-mind of 24-hour staff and security, the ease and delight of chef-prepared meals and the convenience of a range of additional support services.

## A Life of Dignity and Purpose

A mindful approach to promoting dignity and quality of life for those with memory challenges, through compassionate care and a focus on the person, not the disease.

Our Reflections Memory Care program is based on a philosophy of empathy, expression and mindfulness. Through varied and carefully planned programs, we support and enrich the experiences that our residents have every day. We encourage them to be independent, to express themselves and to flourish. We create life experiences and events, not activities.

Reflections is distinguished by its five *Principles for Vitality*, which connect with the whole person through Continued Learning, Arts & Culture, Physical Fitness, Community Connections and Wellness & Self-Care. Through these five dimensions residents thrive in the moment as their best selves.

Influenced by an evidence-based wellness model, our memory care program is led by dementia professionals who are certified by the National Institute for Dementia Education (NIDE). In addition, we work with family physicians to ensure that any needed medications are properly administered and factored into individual wellness plans.

## Expressive Arts

*...where words fail, expression remains*

Expressive art therapies stimulate parts of the brain that hold memories, skills, desires, and feelings like comfort and joy. Because art transcends speech, we can achieve profound connections.
